

## Portable Outfield and Temporary Fencing

Hit a homerun anywhere with Signature SportPanel® portable outfield fencing! Lightweight and easily carried, SportPanel® fencing is designed to create and breakdown an outfield or enclosure in no more than a few minutes. They are the perfect solution for multi-purpose fields, as the fence segments can be easily repositioned. The patented, strong mesh material is designed to provide years of playtime for t-ball and adult players alike.

SportPanel® is not limited for use in the outfield. High schools, universities, parks, community leagues, and sport-plexes all across the nation take advantage of SportPanel®'s numerous uses. This portable fencing has been used to display banners and sponsorship signs, as court separators on tennis courts, and as a barrier for playgrounds. SportPanel® is an economical, durable solution for whenever a temporary enclosure or barrier is required, no matter your event.

## ACCESSORIES & FEATURES

### SportPanel® SafeRail™

SafeRail™, an accessory to SportPanel®, is a protective, plastic covering tube which lays easily and wraps around the top of the panel. It increases visibility and provides safety for your players. SafeRail™ also gives your field that professional stadium look!

### TechnoTip™

These joints allow the fence panel frame to bend and fold flat to the ground upon impact, preventing fielders from being injured when running into a rigid fence. Each SportPanel® with TechnoTip™ comes equipped with two specially designed elbow joints that are attached to the panel's support feet.

### Transport and Storage Cart

The most convenient way to transport and store your portable outfield fencing panels. This optional cart serves a dual purpose: quick and efficient transportation and storage. When you're ready to setup the fencing, simply roll it out onto the field. The SportPanel® cart can be connected to nearly any vehicle (tractor, mower or ATV) with a hitch.

SafeRail™ increases visibility

Transport cart provides storage and speeds install and dismantle
