

## Portable Access Mats and Temporary Flooring

Protect your turf when tasked with projects or events on the field. Strain and damage for your turf starts the minute you lay something on the surface, regardless of whether it's synthetic or natural. Fortunately, Signature Systems Group provides DuraDeck®, a portable, lightweight composite matting system designed specifically to provide access roads and working platforms for vehicles, equipment, and personnel.

DuraDeck® semi-permanent composite mats are robust enough to handle loads up to 80 tons, yet flexible enough that they follow the contours of the terrain without breaking or cracking. DuraDeck® mats distribute the weight of equipment and vehicles, reducing damage to the surface beneath and can be carried by two people for simple installation. The composite nature of the mats means that, not only are they able to handle extreme hot and cold temperatures and are weather resistant, but they're thermally resistant, preventing burning for natural grass.

### EASY TO SHIP

500 DuraDeck sheets can be loaded in a standard US tractor trailer or 40 ft ocean container

### Traction Varieties to Suit Your Worksite

**DuraDeck 1:** Rugged traction on both sides. Ideal for creating a temporary roadway.

**DuraDeck 2:** Rugged traction on one side, pedestrian friendly, textured surface on the other. Perfect for pedestrian pathways or a work site.

**DuraDeck 3:** Pedestrian on one side, smooth on the other. Used for special events and walkways.

**DuraDeck 4:** Rugged on one side, smooth on the other. Designed for use in loading areas or construction sites with heavy vehicle traffic on surfaces.

**Use DuraDeck 1 & 4 for Vehicles**  
(DuraDeck 1 shown)

**Use DuraDeck 2 & 3 for Vehicles/Pedestrians**  
(DuraDeck 2 shown)

### Features and Benefits

- Portable and durable enough for years of use and hundreds of projects
- Less expensive than fiberglass and more cost-effective than plywood
- Will not rot or splinter
- Protects vehicles & equipment from excessive wear and damage due to unstable ground conditions
- Surface traction prevent slippage and provides added personnel safety
- Saves time and labor costs, increasing efficiency
- Eliminates environmental cross-contamination problems associated with plywood sheets
- Guaranteed for 7 years

### SPECIFICATIONS

#### Module Size

4 ft x 8 ft x 1/2 in (122 cm x 244 cm x 1.3 cm). Other sizes available.

#### Material

Black High-Density Polyethylene (HDPE) post-industrial recycled plastic, naturally UV resistant due to the carbon black used for color. Beige mats also available.

#### Weight

86 lbs (39 kg) per mat – 2.7 lbs/ft<sup>2</sup> (13 kg/m<sup>2</sup>)

#### Weight Load

Up to 80 tons depending on sub-surface

### DuraDeck® vs. Plywood

DuraDeck® stands up to the elements. Plywood cracks under pressure.
