

Event Fencing and Temporary Barricades

Twice the elegance for half the hassle. Signature® Panels are our premier special event and exhibit fencing. Constructed to create sturdy, reliable enclosures yet feature an aesthetic, upscale look and feel. Signature Panels® are the perfect fencing solution for a variety of upscale events, tradeshows, and festivals.

These pre-assembled, sturdy panels are easy to transport and use. They can be deployed in minutes without the use of tools and with minimum labor. Signature® Panels utilize shock cords hidden under caps. Panels connect together quickly and easily for increased stability and decorative caps are attached to prevent loss during set-up and tear-down. Base legs swivel to accommodate uneven terrain and include pre-drilled holes for staking when you have more permanent applications.

Signature® Panels are available in four unique styles. From a classic “Picket” style to our more sophisticated “Lattice” style, Signature® Panels are sure to add taste to any occasion.

Picket

Display

Traditional

Lattice

Perfect for Displays

Personalize your display panels by attaching your event name or company logo or design or apply directional information to our display panel. Signature® Panels “Display” style panel is often used in conjunction with our “Traditional” or “Picket” styles. Attractive, white, expertly crafted, panels are appealing from all points-of-view.
